HARMONY AND ELEGANCE

Christine May was originally contacted by the owners of this six-bedroom property to redesign the kitchen/diner. After successfully completing this project Christine was asked to work on other rooms throughout the house one at a time to suit the clients budget. The brief was to create a luxurious but understated space that would be a quiet refuge in the months and years to come. The bedroom suite leads off the main landing and comprises an inner hallway with the bathroom first on the right; next, an open arch leads into the semi open plan bedroom area while further at the end of the inner hallway are the dressing rooms. The finished master suite is harmonious and elegant.

Hadley Wood family residence, Hertfordshire was designed by Christine May of Christine May Interiors and completed in July 2012. Photography by Richard Gooding.
